In a 2008 National Geographic article, Verlyn Klinkenborg noted, "Of all the pollutions we face, light pollution is perhaps the most easily ㉠ _____."

(A) Moreover, these solutions are ㉡[combined/ guided] by principles and technology that save energy, conserve resources, and restore ecosystems. Light pollution is controlled by maximizing efficiency, improving security, and creating a more aesthetically pleasing nocturnal environment.

(B) Returning the night sky to its natural state is as ㉢[hard/ simple] as thoughtful placement of outdoor lighting: putting light where it's needed and darkening areas where it's not. Solutions are available and possible to implement.

(C) When we ㉣[eliminate/ elicit] unnecessary light at night in our communities, we also conserve resources, lower costs, and improve the quality of life. 지구가 직면한 나머지 다른 심각한 환경 문제들도 해결하기가 이렇게 쉽고 보람 있기 만 하다면!

2019학년도 수능특강 영어 - 23강 Exercise 03~04

Boomerang throwing has few equals as an individual sport. Being an unusual type of activity, it serves ① **admirably** as a hobby. I have never known a person to become familiar with the art of the boomerang and not be caught in the irresistible sweeping tide of its appeal.

(A) Even the old-timer at the boomerang game never fails to experience it; he ② **may have made** a thousand boomerangs, yet each time he throws a new one and it works perfectly just as he planned ③ **that** it should, he feels a surge of pride and satisfaction that is worth many times over the effort required for the making. It is a feeling of craftsmanship, of having been the cause! 사실 새로이 만들어진 부메랑이 완벽하게 작동하는 것을 보는 데서 오는 이 기쁨이 대단히 크기 때문에 항상 사람들은 그것을 철저하게 검사할 만큼 충분히 던져 보고 나면 그 막대를 치우고, 그런 다음 다른 방식으로 작동하도록 고안된 다른 부메랑을 만들고 싶어지게 된다.

(B) All the time the boomerang is being whittled, you are looking forward to ④ **throw** it - constantly in your mind is the question, "Will it come back?" And when the last chip has been removed, you hasten to hurl it - and it works! There is a thrill and glowing satisfaction that can only come from a very few other pastimes!

(C) But there is an aspect of the boomerang that plays a most conspicuous role in its appeal - ④ _____ is as interesting as the throwing. ⑤ _____ the making and the throwing are inseparably related in the full enjoyment of the pastime. There is pleasure in throwing a boomerang that is purchased or obtained from someone else, but it is in no respect comparable to the joy and thrill that results in handling one ⑤ **which** you yourself have made.

*conspicuous 똑똑히 보이는 **whittle 조금씩 깎다

Online charter schools, also known as cyberschools, enroll students in full-time schooling delivered over the Internet and ① have become a fast-growing alternative to traditional brick-and-mortar public education. The National Education Policy Center estimated in 2013 ② that 300 full-time cyberschools enrolled more than 200,000 students throughout the United States. When the performance of children ③ who receive their education at cyberschools is assessed, the results, however, are _____. Dropout rates for cyberschooled students often exceed 50 percent; the graduation rate for these students ④ are about two-thirds the rate for traditional schools and 일부 사이버 스쿨에서는 학생-교사 간 비율이 200대 1에 이를 정도로 높다. When it comes to student achievement, children educated in cyberschools lag far behind children educated in traditional brick-and-mortar public schools. State department of education ratings of cyberschools in 2011 - 12 showed that more than 70 percent were rated as academically ⑤ unacceptable.

분명하게 규정된 기대와 허용치는 흔히 자녀의 긍정적인 자존감 형성과 연관되는 부모의 태도이다. Setting high but not impossible expectations, for instance, involves ① providing clear standards of worthiness. Setting goals and holding standards lets the child ② know that certain forms of behavior are desirable, good, or "worthy" and to be strived toward. Establishing and maintaining limits is important ③ because failing to do so is destructive to self-esteem in the long run. For example, a long line of developmental literature shows ④ that parental over-permissiveness is related to negative behaviors such as impulsivity and aggressiveness. The same literature, which can be found in almost any standard text on child development, ⑤ indicating that limits that are too severe or too harshly enforced are also problematic. For instance, they can engender the development of anxious and restrictive behavior, rather than spontaneity and engagement with life.

* engender 낳다
