유무형의 문화유산의 복원과 체험을 위한 가상 기술의 활용

2020년 수능특강 26강 1번

Virtual representation of cultural heritage means using technologies, such as digital photography, 3D information acquisition, multimedia, and virtual reality, to create a virtual situation that can allow experience to a cultural heritage, which can provide the protection and spread of the cultural heritage. For material cultural heritage, such as relics, groups of buildings and ruins, we can use virtual representation technology to restore the appearance of cultural heritage by the models in real life and display it comprehensively. For intangible cultural heritage, we look to find the best way based on its features to reconstruct and integrate forms of visual or experience by making intangible into tangible. In addition, we can combine material cultural heritage with intangible cultural heritage and make the preservation and transmission of cultural heritage more three-dimensional and deeper.

- ① ways to design successful cultural heritage exhibitions
- ② difficulties in discovering hidden cultural heritage sites
- ③ necessity of international cooperation to conserve cultural heritage
- ④ concerns about the use of virtual representation of cultural heritage
- ⑤ preservation and transmission of cultural heritage through virtual representation

*relic 유물, 유적 **intangible 무형(無形)의

PREVIEW

자동차와 운전자의 관계에 관한 전망

2020년 수능특강 26강 2번

다음 글의 요지로 가장 적절한 것은?

As cars are becoming less dependent on people, the means and circumstances in which the product is used by consumers are also likely to undergo significant changes, with higher rates of participation in car sharing and short-term leasing programs. In the not-too-distant future, a driverless car could come to you when you need it, and when you are done with it, it could then drive away without any need for a parking space. Increases in car sharing and short-term leasing are also likely to be associated with a corresponding decrease in the importance of exterior car design. Rather than serving as a medium for personalization and self-identity, car exteriors might increasingly come to represent a channel for advertising and other promotional activities, including brand ambassador programs, such as those offered by Free Car Media. As a result, the symbolic meanings derived from cars and their relationship to consumer self-identity and status are likely to change in turn.

- ① 자율주행 자동차는 교통 정체를 해소하는 데 도움이 될 것이다.
- ② 자동차의 공유와 임대는 자동차의 평균 수명을 줄이는 경향이 있다.
- ③ 소비자는 자율주행 자동차보다는 직접 운전하는 자동차를 선호한다.
- ④ 소비자의 정체성 및 지위와 결부된 자동차의 상징적 의미가 변할 것이다.
- ⑤ 교통사고의 책임은 개인으로부터 자율주행 자동차 운영사로 이동할 것이다.

자동차와 운전자의 관계에 관한 전망

As cars are becoming less dependent on people, the means and circumstances in which the product is used by consumers are also likely to undergo significant changes, with higher rates of participation in car sharing and short-term leasing programs. In the not-too-distant future, a driverless car could come to you when you need it, and when you are done with it, it could then drive away without any need for a parking space. Increases in car sharing and short-term leasing are also likely to be associated with a corresponding decrease in the importance of exterior car design. Rather than serving as a medium for personalization and self-identity, car exteriors might increasingly come to represent a channel for advertising and other promotional activities, including brand ambassador programs, such as those offered by Free Car Media. As a result, the symbolic meanings derived from cars and their relationship to consumer self-identity and status are likely to change in turn.

구문독해

① ^{~함에 따라} As cars are becoming less dependent/on people, the means and circumstances (in which the product is used/by consumers) are also likely to undergo significant changes, (with higher rates of participation in car sharing and short-term leasing programs.)

[dependent / dependable]
 mean의 복·명: 수단, 방법, 재력
[which / in which]
 vt. 겪다 상당한(=considerable)
 임차(임대, 대여)하다

자동차가 사람에게 덜 의존하게 됨에 따라, 자동차 공유와 단기 임대 프로그램에 대한 참여 비율이 높아지면서 그 제품이 소비자들에 의해 사용되는 방식과 환경 또한 상당한 변화를 겪을 가능성이 높다.

② (In the not-too-distant future), a driverless car could come to you (when you need it), and (when you are done (with it)), it could then drive away (without any need for a parking space.)

그리 머지않은 미래에 운전자가 필요 없는 자동차(자율주행 자동차)는 여러분이 필요할 때 올 것이고 여러분이 그것의 사용을 끝내면 그것은 그런 다음 주차 공간을 필요로 하지 않고 떠나가 버릴 수 있다.

③ Increases (in car sharing and short-term leasing) are also likely to be associated with a corresponding decrease (in the importance of exterior car design.)

[is / are]
 ~와 연관되다 상응하는 외부의

자동차 공유와 단기 임차의 증가는 또한 자동차의 외부 디자인이 가진 중요성이 이에 상응하여 감소하는 것과 연관될 가능성이 높다.

④ Rather than serving as a medium (for personalization and self-identity), car exteriors might increasingly come to represent a channel (for advertising and other promotional activities) (including brand ambassador programs, such as those offered by Free Car Media.)

[serving / serve]
 = Instead of ~의 역할을 하다 자아정체성
 come to √V : V하게 되다 대표하다
 수단, 경로 광고(하기), 광고업 홍보의 which are
 대사 = brand ambassador programs
[offered / are offered]

자동차의 외부는 개인화와 자아정체성의 매체로 역할을 하기보다는, Free Car Media에 의해 제공되는 것과 같이 브랜드 홍보 대사 프로그램을 포함한 광고와 다른 홍보 활동을 위한 수단을 점차 대표하게 될 것이다.

⑤ As a result, the symbolic meanings (derived from cars) and their relationship (to consumer self-identity and status) are likely to change (in turn).

[derived / are derived]
 이끌어내다 지위 *[is / are]*
 결국, 결과적으로

결과적으로 자동차에서 끌어내는 상징적인 의미와 그것들이 소비자의 자아 정체성과 지위와 맺는 연관성은 결국 변할 가능성이 높다.
